while maintaining employee
wellbeing

Working with myhrtoolkit at the centre of your business

So much more than the sum of its functions, myhrtoolkit provides a range of collaboration and communication tools for a truly holistic approach to HR management.

Empowering employees since 2005

Toolkit is a perfect fit for our business: simple set up, easy to use and highly cost-effective. We love it so much we use it ourselves and recommend our licensees and clients to use it too.

Sue Tumelty, Founder and Executive Director, The HR Dept

Professional HR support service

It's really just made life a bit easier; we have eight branches so having software in place helps make sure everyone is doing the same thing and we don't have varied systems in place. Plus, it's great making sure all our personal information is safe.

Laura Clark, Baldwins Travel

HR manager for award-winning travel agency

We now have most of our HR documents, including contracts, on the system and we are using the holiday manager which has seamlessly taken over from the various old charts and systems we used to have.

Andrew Buckley, Network Church Sheffield

Head of Operations & Company Secretary
